## Preface

This “**Guide for Applicants**” provides information about the procedure for the submission of project proposals under the **ERA.Net RUS Plus Call 2017 for S&T projects**.

Part I provides general information for applicants by a frequently asked questions (FAQ) section. In part II screenshots of the actual online submission procedure via the online submission tool “pt-outline” are provided and step-by-step advice on how to proceed with your submission is given.

For additional information about the Joint Call, please refer to the **ERA.Net RUS Plus website** <http://www.eranet-rus.eu>.

If your questions are not answered in this guide, please address first the **Contact Points** of your funding organisation and then the Joint Call Secretariat. For a complete list of contact points, please refer to <http://www.eranet-rus.eu/en/201.php>

## I. General Information for Applicants

### What is the ERA.Net RUS Plus initiative?

ERA.Net RUS Plus is a so-called ERA-NET project – European Research Area (ERA) network. ERA-NETs aim at launching joint calls for research and innovation projects as a result of coordinating activities of national research and innovation funding agencies and bodies within the European Research Area. ERA.Net RUS Plus (2013-2018) has been funded by the European Union within the 7th Framework Programme for Research and Technology Development (FP7). It is a follow-up to the ERA.Net RUS initiative with the major aim to link Russia closely to the European Research Area and to deepen the transnational collaboration between EU Member States (MS), Associated Countries (AC) to the EU’s FP7 and Horizon 2020 Programmes and Russia.

### What is the ERA.Net RUS Plus Call 2017 for S&T Projects?

The Joint Call for S&T Projects is a transnational research support instrument within the frame of the ERA.Net RUS Plus Call 2017 initiative. It is developed by and for the organisations participating as funding bodies in the call. These institutions contribute shares of their national budgets into a virtual common pot. This money is used for the competitive support of S&T Projects that will have a significant impact on enhancing the cooperation potential between EU MS/AC and Russia. “S&T” projects are: joint Research and Development projects undertaken by a partnership of institutions (consortium) designed to produce new knowledge through fundamental, experimental and/or theoretical scientific research. Each team of the partnership pursues specific objectives with a view to pooling the results in order to contribute to well-defined objectives.

### Which organisations (Funding Parties) are providing funds for the joint call?

1. Research Foundation – Flanders, FWO (Belgium)
2. Bulgaria National Science Fund, BNSF (Bulgaria)
3. Estonian Research Council, ETAg (Estonia)
4. Academy of Finland, AKA (Finland)
5. Federal Ministry of Education and Research, BMBF (Germany)
6. State Education Development Agency, VIAA (Latvia)
7. Centre for International Projects, CIP (Moldova)

8. Executive Agency for Higher Education, Research, Development and Innovation Funding, UEFISCDI (Romania)
9. Ministry of Education and Science of the Russian Federation, MON (Russia)
10. Russian Foundation for Basic Research, RFBR (Russia)
11. Far Eastern Branch of the Russian Academy of Sciences, FEB RAS (Russia)
12. Siberian Branch of the Russian Academy of Sciences, SB RAS (Russia)
13. Ural Branch of the Russian Academy of Sciences, UB RAS (Russia)
14. Ministry of Education, Science and Technological Development, MPN (Serbia)
15. Slovak Academy of Sciences, SAS (Slovakia)
16. Swiss National Science Foundation, SNF (Switzerland)
17. Scientific and Technological Research Council of Turkey, TÜBİTAK (Turkey)

**The list of participating countries in the ERA.Net RUS Plus Call 2017 – S&T Projects does not comprise all EU Member States and Associated countries to Horizon 2020. Does that mean that the countries that are not listed are not eligible for participation and funding?**

Partners from EU MS/AC countries that are not listed may participate in joint research consortia provided that these project partners agree to fund their total share on their own budget. However, the minimum requirements of a consortium have to be met with partners from countries listed as participating.

**What kinds of applicants are eligible for participation and funding?**

Concerning your or your institution's eligibility for funding, please check the specific national funding regulations of the respective funding party (see the Terms of Reference – ToR). In addition, please consult your national contact point.

**What is the procedure for submitting a proposal to the ERA.Net RUS Plus Call 2017 – S&T Projects?**

The process of submitting, evaluating and selecting projects will be done in one step in the ERA.Net RUS Plus Call 2017 – S&T Projects. This is different to the previous ERA.Net RUS Plus Call in 2014, which was implemented in two steps. The proposal has to be submitted electronically via the PT-Outline tool.

**What is the procedure for evaluating a proposal in the ERA.Net RUS Plus Call 2017 –S&T Projects?**

The proposals will be evaluated by at least three external reviewers, selected from a pool of international evaluators (PT-Expertdatabase) according to matching key words and on the basis of their competence, irrespective of their nationality, age and affiliation. Based on the evaluation results, a ranking list of proposals will be drawn up.

Call: ERA.Net RUS Plus Call 2017 - Science & Technology (RUS\_ST2017)

**This call has not been released for editing yet.**

The ERA.Net RUS Plus with Russia aims at enhancing coordination of research programmes carried out at national or regional level in the EU Member States (MS) and Associated Countries (AC) to the EU Framework Programmes. Based on a successful joint call in 2014, a second joint call is now being implemented.

You can create and submit a proposal for the "Science & Technology" call line here by clicking on the button below.

**All proposals must be written in English only.**

**Step 4.1:** In the second part of “General Information” please

Indicate whether any partner of your consortium takes part in another consortium proposing a project under this call. If yes, give the full project title of the other proposal.

Select the relevant sub-topic for your proposal and chose keywords that describe the research area of your proposal best.

Choosing one keyword among the pre-defined list is mandatory. If possible, choose three keywords to enable a better matching.

If your browser supports JAVA, you can type in the first letters of the needed keyword. This may facilitate your search for a keyword.

You can add keywords in the “free keywords” field.

**Step 4.2:** At the end of this form please click at the button “Save”. Your data will be saved and can be edited at any time before the final submission.

⇒ Afterwards go to form “Project Coordinator” (top left menu)

**Funding Party \***

All applicants are strongly advised to contact their 'Contact Point' in due time before proposal submission in order to check their eligibility on national level. All contact details are listed on <http://www.eranet-rus.eu/en/201.php>

For RUSSIAN APPLICANTS: Please choose one Russian funding party to which you would like to submit your proposal (for FEB RAS, check the guidelines). In terms of your formal eligibility for the Russian funding parties, please get in touch with your national contact point and carefully read the guidelines for Russian applicants: [http://www.era.net-rus.eu/\\_media/Guideline\\_for\\_Russian\\_applicants\\_ST\\_2017.pdf](http://www.era.net-rus.eu/_media/Guideline_for_Russian_applicants_ST_2017.pdf)

Please choose...

**Step 5.1:** The “**Project Coordinator**” is the contact person of your research team / project consortium.

In this form fill in all information related to the project coordinator

For this, please check that all information is filled in correctly.

- Note, that the phone number must contain the country code (e.g. +49/228....)
- Check that you give a valid mail address, since this is our primary way to contact you.
- Please describe the (scientific) role of the coordinator in the consortium.
- For publications please name only those which are important for the proposal
- For Russian applicants: Please choose one of the funding parties. For the option “FEB RAS or RFBR”, please refer to the guidelines for Russian applicants.

## FINANCIAL PLAN

In the following please insert the 'requested funds' itemized by cost type (labour cost, travel cost, etc). Adding up all costs will result in the 'requested funds'. Make sure all 'requested funds' are strictly in line with and according to the NATIONAL funding regulations (upper funding limits, etc) of the respective Funding Party.

**Proposal**

All fields marked with \* are mandatory.

**1. Scientific and/or technological objectives \***  
Please give detailed information about the overall concept and the scientific and/or technological objectives of your proposal. This should include justifying the methodology chosen to reach the objectives. Whenever possible, quantify the objectives in terms of measurable outcomes. Explain the relevance and importance of the research project proposed, in terms of concrete applications (scientific, technological and innovative). If relevant, highlight the multidisciplinary character of the project, whereby the activities in the project will tend to draw on a range of scientific disciplines and explain how this interdisciplinarity is going to be exploited. If the proposal is part of a larger national or international project, explain its role and how it fits into this wider context. Explain the gain in competitiveness and the added value resulting from the cooperation between the partners of the consortium.

**Step 7:** After filling in all project partners, go to the form **“Proposal”**

- Please fill in the information referring to your proposed project.
- Please refer to the terms of reference for details.

 This call has not been released for editing yet.

File Attachments

You can upload 1 pdf file with 5 (figures/schemes/tables) and a reference list of 3 pages. Any data provided in excess or additional project description text and CVs will be deleted.

Allowed file format: PDF files only.  
Max. size 5 MB each.

Attachment 1

**Step 8:** After filling in information on your proposed project, you can upload supporting information in a pdf file.

- You can add up to 5 figures or schemes or tables in order to support your proposal.
- You can add a list of references of up to 3 pages as supporting material to the text provided in the “proposal” form.
- You cannot provide any more text describing your proposal – additional descriptive text will be discarded (also tables with text that should be contained in the “proposal” form).
- CVs provided here will be discarded.

These strict rules are necessary to keep the work load for evaluators manageable.

Please keep the work load of the call secretariat manageable by respecting these rules.
